PROFESSIONAL SUMMARY

Highly motivated, third-year software development student at Belgium Campus ITVersity, seeking an internship program and mentorship opportunity to learn from industry experts. With outstanding communication and teamwork abilities, I have an innovative and collaborative approach to problem-solving and lifelong learning. I am looking to apply the skills gained throughout my studies in an environment that cultivates growth.

CORE COMPETENCIES

- **Excellent organizational and communication skills:** Proficient in written and verbal communication, effectively expressing ideas in groups and consistently meeting deadlines.
- **Proven teamwork abilities:** Collaborated with fellow students on various modules which required teamwork effort. Further demonstrated these abilities through active involvement in a hackathon and have taken a leadership role.
- **Tools:** MS teams, Zoom, Slack, Figma, Miro. Proficient in Microsoft suite, including Word, Excel, PowerPoint.
- **Technical Skills:** Solid foundation in C#, T-SQL, MongoDB, Microsoft Power BI, HTML5, CSS, JavaScript ES6, ReactJs, Software Testing, Software Analysis and Design.
